Subject: Comments regarding Portland Harbor Superfund site

To whom it may concern,

I (and my wife) am a resident of St Johns and was born and raised in Portland. I live several blocks from the river near Cathedral Park and Willamette Cove and utilize these areas with some frequency.

The city of Portland has adopted plans for a bike/pedestrian pathway that parallels the river (North Portland Greenway). This will provide much needed transportation and recreation link between St Johns, the University of Portland, Swan Island industrial area, the Rose Garden sports complex and downtown Portland. Access to the river will increase. This access needs to be safe for all.

Alternative G seems to me to provide the best needed and wanted clean up for the area. I request that Alternative G be adopted as the clean up preference for the lower Willamette River.

Thank you,
